The Representative Curriculum Pledge

At Gladesmore Community School, we embrace our rich cultural and ethnic diversities by celebrating all religions, backgrounds, sexualities, genders and abilities. We are a truly multicultural community where every student is valued and treated as an individual. All students are: included, respected, united.

We actively work to champion our differences by delivering a representative curriculum which provides positive representations through: what we teach in our lessons, promote in our assemblies and projects we run throughout the year. We take this productive approach to promote racial harmony, social inclusion and community cohesion.

At Gladesmore Community School we want everyone to feel:
Included, Respected, United

- We are kind and respectful
- We value each other and celebrate our differences
- We learn about each other through the Representative Curriculum
- We always challenge discrimination and inequalities
- We support our community to become active citizens
