RE: Year 11 intervention programme

Dear Parent /Carer,

We have now started our Year 11 intervention programme to support students in preparing for their GCSE examinations in 2027.

All Year 11 students have been allocated an intervention based on their individual needs and the subjects where they would benefit most from additional support. Sessions will either be led by a subject teacher or involve independent study in the Success Lounge.

An email has been sent to all Year 11 students confirming their allocated intervention, including room details and a teacher they should report to.

Please note:

- Thursday: Selected students will attend a Maths intervention.
- Friday: All Year 11 students will attend an intervention.
- Time: Students must arrive by 8:30am and register with their tutor by 8:35am. Tutors will send students to their allocated intervention rooms at 8:45am, ready to start at 8:50am. Sessions finish at 9:30am, followed by Lesson 1 as normal.

All allocated interventions are compulsory, as they take place during the normal school day. These sessions provide additional support without affecting students' usual lesson timetables.

We kindly ask for your support in encouraging your child to engage fully, put in their best effort and make the most of these valuable opportunities to support their GCSE success.

As an additional incentive, students who attend their intervention sessions on time will earn an intervention point for each session. These points will contribute towards reducing the cost of their Year 11 Prom ticket.

Thank you for your continued support.

Kind regards,

Mr Gözübüyük
Raising Achievement Lead
