RE: School arrangements update

Dear Parent/Carer,

We are pleased to confirm that Gladesmore Community School will be open tomorrow, Friday 20 November. While some areas of the school will remain out of bounds, we have made arrangements to ensure that the school is open to pupils for our normal hours.

Following the recent disruption to our facilities, our teams and contractors have been working hard to restore services to ensure that the school operates safely with as little disruption to learning as possible.

The outage we are experiencing is still affecting our ability to serve food in the usual way. For tomorrow, snacks will be available at break as usual. However, we will be offering a reduced lunchtime menu, with pasta and a limited range of sandwiches available as a grab-and-go meal. We appreciate that this is a more limited choice than usual and will continue working towards restoring our full catering provision as soon as possible.

We would like to thank our parents, carers and pupils for their patience, understanding and support. We recognise the inconvenience that unexpected disruption can cause families and are grateful for your cooperation.

Our priority remains providing a safe, welcoming and supportive environment where pupils can continue their education with minimal interruption.

We will update you with the plans for next week tomorrow and we look forward to welcoming pupils tomorrow.

Kind regards,

Yours sincerely,

Paul Bernard
